The sundials presented hereafter are only some examples of achievements of the Workshop Acacia (see also "examples 2 and 3"). They are always single parts carried out to measure and personalized according to the desires of the customer;

sundial carried out in Cassel 05 at the end of 2002, Cock and entourage decoration "earthenware", currency drawn from the sonnets of Helene de Ronsard, flowers of mountain and legend of the Mélusine fairy.

Curves of the solstices and equinoctial. Horizon. Polar style with ball. An explanatory plate near to the sundial makes it possible to regulate its watch.

sundial with polar and meridian style of average time in Gros 05600 (at the auteur). Devise of the place in local patois: "A Large, one eats when one can, one drinks when one wants" (Valid at the beginning of the XXe century!). Une huppe fasciée and a falcon (female) birds familiar of the place take part in the decoration. A star with seven branches offers an explanation of the succession of the days of the week in close connection with astrology...

The meridian one gives midday in average hour to Gros: the luminous spot is superimposed on the curve into 8 with exactly 13h33m30s in summer, and 12h33m30s in winter. The signs of the zodiac rythment the race of the sun throughout the year (Let us recall that the sign of the zodiac is also an astronomical reality: it corresponds indeed to the displacement of the sun of 30° on the ecliptic starting from the vernal point 0° of the ram);

Sundial with Varzy 58210 on a particular house.

Format 90 X 90 cm - Standard time of winter and equation of time for the 15 of each month: The figure of the hour marks also the number of the month - the equation of time is negative in red and positive in blue -
